It is estimated that the total production of coffee in the world is about 600,000 tons to 650,000 tons, of which Brazil alone produces between 340,000 and 380,000 tons and Java 60,000 to 90,000 tons.

It is said to the credit of Sylvanus Cobb, Jr., the story writer, lately deceased, that in his hundreds of stories, not one of them contained a line which was calculated to injure the morals of the reader. But they were trashy for all that, and will soon be forgotten.

Individuals of Georgia who sought to evade the Prohibition law by establishing club rooms are much excited over the passage by the Legislature of a bill placing a license of \$1,000 on these places. Many fashionable "club men," not only in Georgia but in the North, are quite willing that common people should be deprived of their recreations, but do not relish the idea of their own "kang shunt" off. But all men should be equal before the law.

A late writer proclaims Bismarck a "man of peace," and cites the fact that he has not permitted Germany to fire a shot at anybody for seventeen years. He has been a man of peace since he marched back to Berlin from Paris. Germany has not added an acre here to her European territory since 1870, and seeks none. During this time England has had half a dozen wars of more or less magnitude, and even France has made several essays in the line of compact.

The record of an official trial off Scotland a short time ago, shows that a new steamer named the Queen Victoria, is the fastest in the world. She steamed nine hours, and her speed averaged nearly 26 miles an hour. The steamer ran out into the teeth of what may be fairly called a gale of wind, and during the passage two or three squalls of wind, accompanied by rain, were met with, but the steamer behaved herself splendidly, standing up against the wind in excellent style.

Infants have been dying in New York at the rate of a hundred a day. Two hundred and forty-eight is the record for one week in Philadelphia, and three hundred and twenty-nine in Chicago. Of course the fierce heat has been the common cause of this great mortality. But it should be borne in mind that it is not the heat alone which causes the babies to succumb, but also pure air and impure food. The latter cause diseases which the little folks, by reason of the extreme heat, are the less able to withstand.

The rise of the mercury in a thermometer from fifty below zero to one hundred degrees above, can be, and is, endured in this country, with tolerable equanimity, but scientists shudder at the thought of a hot wave that would raise the thermometer to 125 or 130 degrees. It is said that such an event would cause a destruction of human life almost to the degree of obliteration, for a rise of a very few Fahrenheit above the point of 100 degrees Fahrenheit has been reached constitutes an enormous strain upon human vitality.

The Reichsbank, of Berlin, from which Bismarck has demanded a list of Russian securities held as a basis of loans, is a joint government and private stock bank, the Emperor appointing a part and the stockholders a part of the directory. It has branches through Germany and holds on deposit the reserves or surplus of all the German banks. It is also a general clearing house for other banks. A measure in some respects interfering or at least discrediting or discouraging loans on Russian securities by this institution will have a wide effect.

The large vote in the French Senate in favor of the mobilization of the army, and the extraordinary military movements at Metz, may be taken as indications of determination not to relax military preparations. The Balkan question is yet unsettled. The appearance even of an understanding in the way of alliance between Russia and France tends irresistibly to draw closer together England, Germany, Austria and Italy. In short, all that can be known or reasonably inferred leads to the conclusion that Europe, uncertain as to the future, is preparing for the worst.

The total value of the mineral products increased in round numbers from \$428,000,000 in 1885 to \$465,000,000 in 1886. The important factor in the gain of \$35,000,000 was the increasing production of pig iron from 4,044,525 tons in 1885 to 5,083,329 in 1886, and an appreciation 75 cents in the average value per ton, making a total gain of \$30,488,360 in this industry alone. The total value of gold produced in 1886 was \$35,000,000, an increase of \$3,190,000 over 1885. The production of silver decreased from \$51,000,000 in 1885 to \$51,000,000 in 1886.

Talk about "booms" as we may, few can appreciate what they mean, this side the Rocky Mountains. What they are on the other side may be learned from what a gentleman says, in a letter from Los Angeles, California. "Land immediately outside of the city limits is worth \$25,000 per acre, \$1,000, \$1,700, \$2,500, \$3,000, \$4,000, \$5,000, \$6,000, \$7,000, \$8,000, \$9,000, \$10,000, \$11,000, \$12,000, Miss Lottie Grandemeyer is visiting at
Minnetonka lake.

M. McFadden spent several days in
Minneapolis this week.

The city prisoners will probably be
worked on the street hereafter.

E. J. Fulton has bought a residence at
the corner of 5th and Pine streets.

Miss Emma Schoemann, of Chicago,
is visiting with her sisters, Mrs. Cohen
and Mrs. Patek, of this city.

The city council at a special session
last Saturday night extended Mr. Kinder-
ley's street railway franchise for sixty
days.

William Cragg, of Dakota City, Iowa,
is visiting friends in Brainerd. The
gentleman was formerly in the drug business
here.

L. J. Tisdale, a member of the firm of
Stark Bros. & Co., of Milwaukee, is
visiting in the city with Mr. and Mrs. C.
G. Young.

The Journal and the preachers are
having a tilt over the Sabbath question.
We think Bro. Stevens mistook his call-
ing.

There are some pieces of sidewalk in
this city that will not bear inspection
and the sooner the defective walks are
fixed the better it will be for the pedest-
rians.

It is said that the death of Chas. A.
DeGraff, who owned the large part of
the Little Falls water power property,
will not delay the proposed improve-
ments there.

A man by the name of Comstock, from
Gull Lake, was arrested by C. Cross yester-
day for selling whisky to Indians.
Gus. Beaulieu took him to St. Paul on the
noon train to-day.

Charles Shannon was lucky enough to
find someone to pay his fine yesterday
but couldn't resist the temptation to fill
up again. He got fifteen days this
morning and will be given a chance to
work on the streets.

J. C. Martin, formerly a resident of
Brainerd, but who moved to Ottumwa,
Iowa, some months ago, was run over
and killed by an engine near that place
last Friday. Mr. Martin was a brave
man on the C. B. & Q. road, and fell
from the engine onto the rails. The blow
was a severe one to his family, his
wife being an invalid and having five
children.

Gus. Beaulieu captured another victim
yesterday in the person of Wm. Clark,
who was charged with selling whisky
to Indians. The Indians get plenty of
whisky somewhere, but it seems to be a
hard job to trace it out. Coming in
from Lake View Wednesday evening the
writer saw two squads of Indians by the
roadside, who had stopped and were
taking a drink all round from well filled
quart bottles, and it is no uncommon
occurrence to see them drunk on the streets.

James Scanlon and Wm. Hawley, two
sneaks who stole some blankets from a
stock train and were awaiting trial man-
aged to break out of the city jail Wed-
nesday night by sawing two of the iron
bars off that form the grating over the
window. A saw made from a case knife
was probably the instrument with which
they did the job. Several other prisoners
confined in the jail refused to go with
them. Nothing has been seen of them
since, and it is supposed they boarded a
train and went west.

Governor McGill and party, consisting
of his son, C. H. McGill, V. S. Stone, of
Fargo, C. L. Stone, of Syracuse, and F.
J. Kline, of Minneapolis, arrived in the
city Tuesday night and were received by
C. F. Kindred. The party next day, ac-
companied by W. W. Hartley, O. H.
Havill and W. B. Seely and Mr. Kinder-
ley started for Leech lake along the line
of the Brainerd and Northwestern on a
prospecting tour and to look the country
over. That the Governor will be enter-
tained in royal style is not doubted by
people who are acquainted with Mr. Kinder-
ley.

Sheriff McLaren returned from Crook-
ston this morning without catching the
man he went after. He says that when
he got to Crookston the thieves had fled,
having been notified by someone in
Brainerd that he was coming after one
of their number. Not being satisfied he
went on to Crookston, but none of the
fakes showed up there. Chas. Blunt, of
Mille Lacs, was the man who swore out
the warrant, he having been swindled
out of \$50 by the soap man. He was in-
duced to give up his money by being
told that he would receive \$1 back, but
when he opened the package there was
nothing in it, and when he demanded
his money the soap man did not remem-
ber of having seen him before. If Mr.
Blunt had immediately made complaint,
he could have had the man brought to
justice, but he waited too long and the
bird escaped.

The city government.

The city council held a meeting on
Monday evening, but nothing of impor-
tance was transacted. The committee
on opening up Fifth street were changed to
Aldermen Seales, Gardner and Cul-
len. The liquor bonds of Frank Gray
and Merriott Bros. were approved. The
pay roll, amounting to \$438.25, was al-
lowed, and also a few minor bills. The
collections of fines last month amounted
to \$501.50, the pound master contributing
\$28.50 of the amount. The matter of
opening bids for sewer building was laid
over on account of A. G. Gardner being
absent. The sidewalk tax on S. Walker's
property was slated \$30 and the council
adjourned.

had plenty to eat and were of the usual
number. The circus performances were
decidedly flat, and people who expected
to see something "entirely new" were
disappointed.

Judge Sleepers' Lake View Resort.

Wednesday morning by the courtesy of
Judge Sleepers we visited Lake View and
spent the day enjoying the lake breezes
and the Judge's generous hospitality.

Lake View is one of the prettiest places
for motels around and the selection for
the resort was indeed very fortunate for
the people of Brainerd, lying as it does,
within a forty-five minutes drive of the
dusty, heated city. Between Long lake
and Bass lake on an elevation Mr.
Sleepers has erected a big hotel, com-
modious, cool and pleasant. The build-
ing faces Bass lake and the breezes from
off this beautiful little sheet of water are
continually fanning the heated brows of
tourists and pleasure seekers as they
congregate at this place for a days out-
ing. Along the shores to the southeast
Hon. G. H. Hartley and A. L. Hoffman
have built substantial cottages and be-
low them back from the shores in the
cool shade some fifty or twenty tents
are visible, having been placed there by
parties who are spending the heated
term at the lake side. Mr. C. N. Parker
having some eight or ten tents of his
own there in which he is entertaining
friends from the cities below. Meals are
served at the hotel and many tents
take advantage of hotel fare and still en-
joy the luxuries of outdoor living. The
bathing at the lake is one of the pleasant
pastimes, the warm water and sandy
bottom furnishing excellent facilities.
Mr. Sleepers has plenty of boats and
ample accommodations for parties and
picnics and the surroundings are fitted
for such occasions. On the hotel register
we noticed the following arrivals for
Sunday last:

which appear to be in store for them and they expect a boom in the real estate market. Hurry that Duluth has enjoyed. Work on the Mississippi river dam is progressing rapidly and on its completion a revival of manufacturing interests is expected. Besides this the signs indicate a movement by the Brainerd & Northwestern Railroad company and they hope to see the new road completed into the city in a very short time. Brainerd has been an extremely dull town for some time past, and we are glad to know that it is likely to become its old and prosperous self again soon.—Duluth Herald.

The management of the State Fair, which begins at the state fair grounds Hamline, between St. Paul and Minneapolis, September 9th, promises some big things in the way of attractions. They have very wisely offered large cash premiums for fine horses and cattle and all farm and dairy products, and this will encourage Minnesota farmers to take their fine stock and grain to the fair.

A premium list will be sent to anybody who will write to H. E. Hoard, the secretary, at Hamline, Minn.

When his administration under Jefferson was over he had done under Adams. According to the old story, when Adams reformed the President had not the right to change his Cabinet at will, and he could not take Jefferson's hint that his old friends should resign. So the President appointed Gallatin over Dexter's head and he had to step down and organize a new Cabinet. Gallatin was a very accomplished man. He was born in Geneva, Switzerland, and he acted as a tutor in Harvard College when he first came to this country. After the war he was elected to the United States Senate but was refused his seat because he was not a citizen of America. He resigned long before the war and he was a very influential, and was one of the ablest financiers of our history. Gallatin's successor, George Campbell, of Tennessee, was a very able man. He was a Scotchman graduated at Princeton. Roger Taney, whom Jackson appointed to replace the deposits, was educated at Yale and he was a very able lawyer went to school at Dartmouth. The eldest Ewing, whose daughter married General Sherman when he was in college at Athens, O., and John Sherman, though not a college graduate, had been well educated at academics, and he was a very able man. He was a larger school, the Capitol of the United States. Tom Corwin had received a similar education to that of Sherman, and he was a very able man. He was a well educated man. Salmon P. Chase was noted as a scholar and a statesman. His living had much to do with the war. He was a very able man. When he was appointed from the Treasury to the Supreme bench, and Tom Corwin died of paralysis here at Washington when he was a young man. *Corwin, in Cleveland*

It is estimated that the total production of coffee in the world is about 600,000 tons to 650,000 tons, of which Brazil alone produces between 340,000 and 380,000 tons and Java 60,000 to 90,000 tons.

It is said to the credit of Syllanus Cobb, Jr., the story writer, lately deceased, that in his hundreds of stories, not one of them contained a line which was calculated to injure the morals of the reader. But they were trashy for all that, and will soon be forgotten.

Individuals of Georgia who sought to evade the Prohibition law by establishing club rooms are much excited over the passage by the Legislature of a bill passing a license of \$10,000 on these places. Many fashionable "club men," not only in Georgia but at the North, are quite willing that common people should be deprived of their rations, but do not relish the idea of their own b. & g. shut off. But all men should be equal before the law.

A late writer proclaims Bismarck a "man of peace," and cites the fact that he has not permitted Germany to fire a shot at anybody for seventeen years. He has been a man of peace since he marched back to Berlin from Paris. Germany has not added an acre to her European territory since 1870, and seeks to keep the peace in time England has had half a dozen wars of more or less magnitude, and even France has made several essays in the line of compact.

The record of an official trial of Scotland a short time ago, shows that a new steamer named the Queen Victoria, is the fastest in the world. She steamed nine hours, and her speed averaged nearly 26 miles an hour. The steamer ran out into the teeth of a heavy sea, and a fair gale of wind, and during the passage two or three squalls of wind, accompanied by rain, were met with, but the steamer behaved herself splendidly, standing up against the wind in excellent style.

Infants have been dying in New York at the rate of a hundred a day. Two hundred and forty-eight in the record for one week in Philadelphia, and three hundred and twenty-nine in Chicago. Or course the cause of this great mortality. But it should be borne in mind that it is not the heat alone which causes the babies to succumb, but also impure air and impure food. The latter cause diseases which the little folks, by reason of the extreme heat, are the less able to withstand.

The rise of the mercury in a thermometer from fifty below zero to one hundred degrees above, can be, and is, endured in this country, with tolerable equanimity, but scientists shudder at the thought of a hot wave that would raise the thermometer to 125 or 130 degrees. It is said that such an event would cause a destruction of human life almost to the degree of obliteration, for a rise of a very few degrees after the point of 100 degrees Fahrenheit has been reached constitutes an enormous strain upon human vitality.

The Reichsbank, of Berlin, from which Bismarck has demanded a list of Russian securities held as a basis of loans, is a joint government and private stock bank, the Emperor appointing a part and the stockholders a part of the directory. It has branches throughout Germany and holds on deposit the reserves or surplus of all the German banks. It is also a general clearing house for foreign exchange, measures in some respects, interfering or at least discouraging or discouraging loans on Russian securities by this institution will have a wide effect.

The large vote in the French Senate in favor of the mobilization of the army, and the extraordinary military movements at Metz, may be taken as indications of determination not to relax military preparations. The Balkan question is yet unsettled. The appearance every day of the Russian standing in the way of alliance between Russia and France tends irresistibly to draw closer together England, Germany, Austria and Italy. In short, all that can be known or reasonably inferred leads to the conclusion that Europe, uncertain as to the future, is preparing for the worst.

The total value of the mineral products increased in round numbers from \$428,000,000 in 1885 to \$465,000,000 in 1886. The important factor in the gain was \$35,000,000, or the increasing production of pig iron from 4,044,525 tons in 1885 to 5,483,322 in 1886, and an appreciation 75 cents in the average value per ton, making a total gain of \$30,483,300 in this industry alone. The total value of gold produced in 1886 was \$35,000,000, an increase of \$3,199,000 over 1885. The productions of silver decreased from \$51,000,000 in 1885 to \$51,000,000 in 1886.

Talk about "booms" as we may, few can appreciate what they mean, this side the Rocky Mountains. What they are on the other side may be learned from what a gentleman says, in a letter from Los Angeles, California. "I am immediately outside of the city limits is worth from \$1,000, \$1,500, \$1,700 to \$2,500 per acre. In Pasadena it is worth from \$2,000 to \$4,000, at San Gabriel, from \$1,500 to \$2,500, and at Orange, Monrovia, Pomona and other comparatively well settled places, prices are but slightly lower. On Spring and Main sts.—the two principal business streets of the city—the land is worth from \$1,200 to \$1,800 per front foot, and the rents received from the property fully justify the value. To give you an idea of the population and good pouring in here, I am told upon good authority that the four banks of the city of Los Angeles hold nearly \$13,000,000 of deposits belonging to people who have recently acquired residence here. In Pasadena the three banks' vaults contain over \$1,000,000 of deposits, and the whole town does not embrace more the 5,000 souls."

NEWS IN BRIEF.

Death of John Taylor, Chief of the Mormons.

John Taylor, President of the Mormon Church, died at his home in England, and joined the Mormons in 1830. He became conspicuous for his zeal and courage in defending the church, "Mormonism," and his strong personal friendship for the prophet, Joseph Smith. He went with the church to Missouri, where he was ordained one of the Twelve Apostles, and he suffered with the exiles, and the miseries that attended the expulsion of the Mormons from that state in 1838. He took a prominent part in the organization of the fugitive exiles in Illinois, and in the building of the city of Nauvoo. He was the editor of the official journal of the church.

When Joseph and Hiram Smith were confined, Taylor acted as secretary, and Taylor stayed with them as a friend and visitor. When they were assassinated he was present, and he was one of the four places by the mob. When the Mormons were expelled from Nauvoo, Taylor accompanied them to the Missouri river. He was one of the Apostles, took a prominent part in the church, and was a member of the companies of ex-patriated British, French and German soldiers, who followed the pioneers and exiles across the plains and the Rocky mountains. He was also among the most energetic in the church, and he was the author of 500 men who enlisted to serve the church, and he was the author of 500 men who were sent on several preaching missions to foreign lands, chief among which was one to the Cape of Good Hope, South Africa, France and Germany.

Brigham Young died in 1877. Elder Taylor acted as secretary, and he died of the council of apostles, and he was a member of the church. Three years later Taylor was elected president, with George Q. Cannon and Joseph Smith as his associates.

After the passage of the Edmunds law of 1882, he pretended to give up his wives, but he continued to live with them. He was indicted early in 1885, and he was sentenced to prison for life. Since then he has been in hiding from the law. George Q. Cannon publishes a long, violent announcement of his death in the Standard, and he says that he is the enemy of officers of the law in not permitting Taylor to come out and have his wife. He says that he is the enemy of officers of the law in not permitting Taylor to come out and have his wife. He says that he is the enemy of officers of the law in not permitting Taylor to come out and have his wife.

A Buccaneer of the Sixteenth Century.

Howard Pyle, in Harper's Magazine for August.

The greatest of all the buccaners, he who stands pre-eminent amongst them, and whose name even to this day is a charm to call up the deeds of daring, his dauntless courage, his triumphant cruelties, and his insatiable and unapproachable lust for gold, was Captain Henry Morgan, the bold Welshman, who brought buccaneering the light and power of the modern navy to the world.

Having sold himself, after the manner of the times, for his passage across the seas, he worked out his time of servitude at the Barbadoes, as he had regained his liberty, he entered upon the trade of piracy, where he soon reached a position of considerable prominence.

The first attempt Captain Henry Morgan ever made against any town was against the Spanish city of Porto Rico, upon the island of Cuba, with a mere handful of men. He was defeated, and he was held prisoner for a long time.

But when the division of all this world's goods was made, he was only fifty thousand pieces of eight to be found. What had become of the rest no man could tell but Captain Henry Morgan knew.

Rude, truculent, and dishonest as Captain Morgan was, he seemed to have had a wonderful power of persuading the wild buccaners under his command to do anything in his judgment, and to rely upon his judgment.

A ROMANCE WITH A MORAL.

Sad Day of a Wedding Day for a Young Man of Pennsylvania.

Walter Wade, a bold, dashing stock and provision speculator, came home from California to fulfill a promise of marriage with Miss Fannie Eckert, who was to take place, says a Glenview, Pa., special. The most elaborate preparations had been made, and the relatives and friends of the young lady waited with every emotion of pleasure for the happy event. But Wade's recent ill-luck in the speculative field drove him to despair, and rather than face the disappointment which would inevitably follow, he attempted suicide and now lies hopelessly in the arms of the doctors.

ARMED AND HOUSEHOLD.

General Appointments.

In spite of the waste of food, the American Cultivator thinks that growing corn and making pork from it comes nearer to making hog keeping profitable than any other plan. It is the method by which nine-tenths of the pork raised in the North is made, and for hog cholera, would be about as safe a branch of farming as anyone could undertake. On most small farms, pork is a by-product, made from what would otherwise be wasted, and therefore to this extent profitable.

The "Drovers' Journal" has this suggestive paragraph about the brand of the "old-fashioned" which took its root in a bull near Fox River, Ill.: "This animal was constantly kept tied up in a stable with a full-sized opening in the side closely a huge pile of manure and disgusting filth, the stable was not cleaned, and the manure was not removed, and the animal was not fed, and the animal was not watered, and the animal was not exercised, and the animal was not kept clean, and the animal was not kept healthy, and the animal was not kept strong, and the animal was not kept fat, and the animal Judge Sleeper's Lake View Resort.

Wednesday morning by the courtesy of
Judge Sleeper we visited Lake View
and spent the day enjoying the lake breezes
and the Judge's generous hospitality.

Lake View is one of the prettiest places
for miles around and the selection for
the resort was indeed very fortunate for
the people of Brainerd, lying as it does,
within a forty-five minute drive of the
city, heated city. Between Long Lake
and Lake Superior, on an elevated site,
Mr. Sleeper has erected a log hotel, com-
modious, cool and pleasant. The build-
ing faces Bass Lake and the breezes from
off this beautiful little sheet of water are
continually fanning the heated brows of
tourists and pleasure seekers as they
congregate at this place for a day out-
ing. Along the shores to the southeast
Hon. G. H. Hartley and L. A. Hoffman
were seen. Substantial cottages and a
few lowly huts from the shores in the
cool shade some fifteen or twenty tents
are visible, having been placed there by
parties who are spending the heated
term at the lake side. Mr. C. N. Parker
having some eight or ten tents of his
own there in which he is entertaining
friends from the cities below. Meals are
served at the hotel and many tenters
take advantage of hotel fare and still en-
joy the lures of outdoor life.

The lake is one of the pleasant
pastimes, the warm waters and sandy
bottom furnishing excellent facilities.
Mr. Sleeper has plenty of boats and
ample accommodations for parties and
picnics and the surroundings are fitted
for such occasions. On the hotel register
we noticed the following arrivals for
Sunday last:

F. D. Stanley, J. B. Moore, Julia E.
Helm, Christine E. Walker, Anne Mc-
Call, Mrs. W. A. Ames, D. W. Travis
and family, C. Walker, G. D. LaBar,
Leon E. Lum, A. J. Sovereign and wife,
A. F. Groves, Joe Cohen, W. J. John-
son, Mrs. L. Seymour and daughter, O.
H. Havill, S. R. Ainslie and three
daughters, W. A. M. Johnston, Miss
Minnie Prouty and Miss Lillie Fairchild.

At Camp Parker on August 2nd, the
following were registered: Mrs. J. H.
Welsh, St. Paul; Miss Nellie Emerson,
St. Paul; Mrs. R. H. Emerson, Atchison;
Louis Emerson, Atchison; Mr. and Mrs.
E. E. Merrill and Miss Francis, St. Paul;
Mrs. S. F. Parker, Brainerd; Gene
Moore, St. Paul.

The Circus Fakes.

The crowd of thieves and gamblers
following Barrett's circus which visited
Brainerd Tuesday last were many in
number and bold in their robbing opera-
tions. As a rule this city has more of
this class of people than is necessary but
when a hundred three card monte
workers and men of that stripe are
dropped into a city in a bunch and they
proceed to outdo each other in crime and
robbery it is not surprising that the
people in that part begin to feel that
the law is not doing its duty. The first
man to be taken was a man named
Welsh, St. Paul; Miss Nellie Emerson,
St. Paul; Mrs. R. H. Emerson, Atchison;
Louis Emerson, Atchison; Mr. and Mrs.
E. E. Merrill and Miss Francis, St. Paul;
Mrs. S. F. Parker, Brainerd; Gene
Moore, St. Paul.

James Scanlon and Wm. Hawley, two
sneaks who stole some blankets from a
sneak train and were awaiting trial man-
aged to break out of the city jail Wed-
nesday night by sawing two of the iron
bars off that form the grating over the
window. A saw made from a case knife
was probably the instrument with which
they did the job. Several other prisoners
confined in the jail refused to go with
them. Nothing has been seen of them
since, and it is supposed they boarded a
train and went west.

Governor McGill and party, consisting
of his son, C. H. McGill, V. S. Stone, of
Fargo, C. L. Stone, of Syracuse, and F.
J. Kline, of Minneapolis, arrived in the
city Tuesday night and were received by
C. F. Kindred. The party next day, ac-
companied by W. W. Hartley, O. H.
Havill and W. E. Seelye and Mr. Kind-
red started for Lake View along the line
of the Brainerd and Northwestern on a
prospecting tour and to look the country
over. That the Governor will be enter-
tained in royal style is not doubted by
people who are acquainted with Mr.
Kindred.

Sheriff McLaren returned from Crook-
ston this morning without catching the
man he went after. He says that when
he got to Crookston the thieves had all
fled, having been notified by someone in
Brainerd that he was coming after one
of their number. Not being satisfied he
went on to Crookston, but none of the
fakes showed up there. Chas. Blunt, of
Mille Lacs, was the man who swore out
the warrant, he having been swindled
out of \$50 by the soap man. He was in-
duced to give up his money by being
told that he would receive \$50 back, but
when he opened the package there was
nothing in it, and when he demanded
his money the soap man did not remem-
ber of having seen him before. If Mr.
Blunt had immediately made complaint,
he could have had the man brought to
justice, but he waited too long and the
fakel escaped.

City Government.

The city council held a meeting on
Monday evening, but nothing of im-
portance was transacted. The committee
on opening up Fifth street were changed
to Aldermen Seales, Gardner and Cul-
len. The liquor bonds of Frank Gray
and Merriott Bros. were approved. The
pay roll, amounting to \$438.25, was al-
lowed, and also a few minor bills. The
collections of fines last month amounted
to \$50.50, the pound master contributing
\$25.50 of the amount. The matter of
opening bids for sewer building was laid
over on account of A. H. Gardner being
absent. The sidewalk tax on S. Walker's
property was abated \$30 and the council
adjourned.

The council will meet in special session
Saturday evening to consider the bids on
sewerage.

Gull River Cleanings.

Geo. Whipple lost a valuable coat last
Tuesday.

The Indians are getting quite trouble-
some in the vicinity of Pillager.

The mill shut down Tuesday after-
noon so the boys could go and see Jo-Jo.

Webb Hill's little boy died from
cholera infantum, last Tuesday morn-
ing.

W. H. Benson, who has been in charge
of the company's store here during the
past year has severed his connection with
the firm and will leave the 15th of this
month. He has not decided yet where
he will locate.

The Circus.

Barrett's circus and Jo-Jo have come
and gone leaving disappointment to many
households—and empty pocket books in
the trousers of many.

The circus was the tried to bust
the street parade was fair, the animals
in the menagerie looked as though they
had plenty to eat and were of the usual
number. The circus performances were
decidedly flat, and people who expected
to see something "entirely new" were
disappointed.

Mens solid kid working shoes very
cheap at Day & Meagher's.

Miss Lottie Grandelmyer is visiting at Minnetonka lake.

M. McFadden spent several days in
Minnetonka this week.

The city prisoners will probably be
worked on the street hereafter.

E. J. Fallon has bought a residence at
the corner of 5th and Pine streets.

Miss Emma Schoenmann, of Chicago,
is visiting with her sisters, Mrs. Cohen
and Mrs. Patek, of this city.

The city council at a special session
last Saturday night extended Mr. Kind-
red's street railway franchise for six
days.

William Cragg, of Dakota City, Iowa,
is visiting friends in Brainerd. The gen-
tleman was formerly in the drug business
here.

L. J. Tisdale, a member of the firm of
Stark Bros. & Co., of Milwaukee, is
visiting in the city with Mr. and Mrs. C.
G. Young.

The Journal and the preachers are
having a tilt over the Sabbath question.
We think Bro. Stivers mistook his call-
ing.

There are some pieces of sidewalk in
this city that will not bear inspection
and the sooner the defective walks are
replaced the better it will be for the pe-
destrians.

It is said that the death of Chas. A.
McFadden, who owned the larger part of
the Little Falls water power property,
will not delay the proposed improve-
ments there.

A man by the name of Comstock, from
Gull Lake, was arrested by C. Cross yes-
terday for selling whisky to Indians.
Cross brought him to St. Paul on the
noon train today.

Charles Shannon was lucky enough to
find someone to pay his fine yesterday
but couldn't resist the temptation to all
up again. He got fifteen days this
morning and will be given a chance to
work on the streets.

J. C. Martin, formerly a resident of
Brainerd, who moved to Ottumwa,
Iowa, some months ago, was run over
and killed by an engine near that place
last Friday. Mr. Martin was a brake-
man on the C. B. & Q. road, and fell
from the engine onto the rails. The blow
will be a severe one to his family, his
wife being an invalid and having five
children.

Gus. Beaulieu captured another victim
yesterday in the person of Wm. Clark,
who was charged with selling whiskey
to Indians. The Indians get plenty of
whiskey somewhere, but it seems to be a
hard job to trace it out. Coming in
from Lake View Wednesday evening the
writer saw two squads of Indians by the
roadside, who had stopped and were
taking a drink all round from well filled
quart bottles, and it is not uncommon
occurrence to see them drunk on the streets.

James Scanlon and Wm. Hawley, two
sneaks who stole some blankets from a

aged to break out of the city jail Wed-
nesday night by sawing two of the iron

Will the Brainerd Boys Go?

The Fire Department excursion to
Duluth will occur Friday, August 19,
via the Northern Pacific road. The
train will leave here at 9:30 o'clock in
the morning, and after short stops at
Little Falls and Brainerd will reach Du-
luth that evening for supper. The re-
turn trip tickets, \$3.00.—St. Cloud
Journal-Press.

D. M. Clark & Co., display one of the
finest lines of jewelry ever brought to
this city. Dinner sets, tea sets, or dishes
by the piece. Call before the line is
broken and secure bargains. They are
sure to have something you want in that
line.

Brainerd Also Paid a Dollar.

Duluth is the only place in the coun-
try, so far as heard from, where a circus
has the check to ask \$1 a ticket. The
people should after this state of affairs at
the next opportunity by staying at home.
